

TO THE SALOOJEE AND CHAMDA FAMILIES.

Knowing your families as I do, I should not have waited for the Robben Island trip to express my gratitude and appreciation for what you mean to me personally, and I'm sure likewise to many others.

Although I met the two families after varying lengths of time, I have happily observed that the similarities in your commitment, care and generosity come straight from the heart.

Within your capacity you have been ever-ready to respond in one way or another to the needs of the needy.

May your exemplary qualities be emulated by the generations to come.

Best wishes

TO THE SALOOTE AND CHAMDA FAMILIES

Knowing your families as I do, I regret having waited for our Robben Island trip to express my gratitude and appreciation for what you mean to me personally, and I'm sure likewise to many others.

Although I met the two families at different times of my life, I have happily observed that the similarities in your care, generosity, loyalty and commitment come straight from the heart.

Within your capacity you have been, and remain ever-ready to respond in ^{one} way or another to the needs of the needy.

May your exemplary qualities be emulated by the generations to come.

Very best wishes

Om Kathrada
